Re: Permission to access water storage tank on BMDWCA land

This letter is to notify you that the Board of Directors of the Brazos Mutual Domestic Water Consumers Association (BMDWCA) grants permission to the Brazos Canyon Volunteer Fire Department (BCVFD) to access and use the water storage tank as needed.

The water storage tank is located north of the pond on Fall Creek Road and is for water storage only—it is not connected to the water system and, therefore, must be manually filled by BCVFD.

The BCVFD is permitted use of the storage tank until this authorization is revoked by the BMDWCA board of directors.

Sincerely,

Robert (Bob) Cooke
BMDWCA Board President
