

# **Brazos Mutual Domestic Water Consumers Association**

## **Community Liaison Report**

Report Date: March 3, 2026  
Activity Period: February 2026

### **Tank Level Inspections**

A total of 17 tank level inspections were conducted during February 2026. Water storage levels remained stable throughout the month.

### **Random Meter Checks**

Random meter checks will be increased with improving weather conditions and increased occupancy in community cabins.

### **Well System Updates**

Notification was received from Teri Fahs regarding non-state-approved valves located in the two lower well houses. Daniel Gonzales has replaced the valve in Well House One and will address the same issue in Well House Three soon.

A meeting will be held with Richard Ulibarri to review the operation and controls within the lower well houses to create operational redundancy and improve familiarity with system functionality.

# Invoice
